Outbreak Control and Treatment Strategies for Filovirus Haemorrhagic Fever

Table of Contents

List of abbreviations	6
Samenvatting	8
Summary in English	11
Chapter 1 - General Introduction	15
1.1 Background	15
1.2 Clinical presentation	15
1.3 Geographic distribution	16
1.4 Outbreak history	17
1.4.1 Marburg virus	18
Table 1. Recognised Marburg haemorrhagic fever outbreaks	19
1.4.2 Ebola viruses	19
Table 2. Recognised Ebola haemorrhagic fever outbreaks	20
1.5 Frequency and magnitude of outbreaks	22
1.6 Transmission and populations at risk	23
Secondary transmission	23
Primary transmission	26
Laboratory workers and global risk	27
1.7 Médecins Sans Frontières filovirus outbreak response components	28
1.7.1 Response in a community	29
Epidemiological surveillance and case detection	29
Burial and disinfection	30
Home-based risk reduction	30
Peripheral health facility support	31
Psychosocial support	31
Information and education campaign	32

1.7.2	Response in a filovirus ward and health facility	32
	Design and construction of the filovirus ward	33
	Case diagnosis	33
	Case detection in the health facility	34
	Case management	34
	Psychological care	35
	Infection control in the health facility	36
1.8	Chapter 1 references	37
 Chapter 2 – Thesis Rationale, Objectives, and Organization		51
2.1	Thesis rationale	51
2.1.1	Improving outbreak control in a community	52
2.1.2	Improving outbreak control in a filovirus ward and health facility	53
2.1.3	Improving treatment strategies	55
	Overview of innovative treatment	55
	Past and current challenges for case management	58
	Improving treatment strategies	59
2.2	Thesis objectives	60
2.3	Organization of the thesis	61
2.4	Chapter 2 references	62
 Chapter 3 – Peer-reviewed and published research regarding outbreak control strategies in the community and a filovirus ward and health facility		67
3.1	Filovirus outbreak control in the community	66
3.1.1	The Médecins Sans Frontières Intervention in the Marburg hemorrhagic fever epidemic, Uige, Angola, 2005. II. Lessons learned in the community. <i>Journal of Infectious Diseases.</i>	66
3.1.2	Decreased peripheral health service utilization during an outbreak of Marburg haemorrhagic fever, Uige, Angola, 2005. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene.</i>	72
3.1.3	Infection control during filoviral hemorrhagic fever outbreaks: preferences of community members and health workers in Masindi, Uganda. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene.</i>	75
3.1.4	Factors associated with Marburg hemorrhagic fever:	

analysis of patient data from Uige, Angola. <i>Journal of Infectious Diseases</i> .	78
3.2 Filovirus outbreak control in a filovirus ward and health facility	88
3.2.1 The Médecins Sans Frontières intervention in the Marburg epidemic Uige/Angola, 2005 – I: Lessons Learned in the hospital. <i>Journal of Infectious Diseases</i> .	88
3.2.2 Factors associated with Marburg hemorrhagic fever: analysis of patient data from Uige, Angola. <i>Journal of Infectious Diseases</i> .	96
Chapter 4 – Peer-reviewed and published research regarding clinical manifestations, case management, and treatment strategies	109
4.1 Clinical manifestations, case management, and treatment strategies	107
4.1.1 Factors associated with Marburg hemorrhagic fever: analysis of patient data from Uige, Angola. <i>Journal of Infectious Diseases</i> .	107
4.1.2 Filovirus hemorrhagic fever outbreak case management: a review of current and future treatment options. <i>Journal of Infectious Diseases</i> .	117
4.1.3 An outbreak of viral haemorrhagic fever caused by a newly identified Ebola virus strain: clinical manifestations and case management, Bundibugyo, Uganda, 2007-2008. Manuscript under preparation.	134
Chapter 5 - General Discussion and Recommendations	156
Outbreak control in an affected community	156
Outbreak control in a filovirus ward and health facility	158
Clinical manifestations, case management, and treatment	158
Acknowledgements	161
Disclaimer	162
