Master of Science in Tropical Medicine (MTM)**

THESES – MAITRISE EN SCIENCES

**THESES – MASTER OF SCIENCE IN TROPICAL MEDICINE
(MTM)**

2021 - 2024

**Institut de Médecine Tropicale Anvers, Bibliothèque
Institute of Tropical Medicine Antwerp, Library**

2021

1. Adebola, Alade Wasiu. Examining the treatment outcomes of Multi-Drug-Resistant TB patients in Kwara state, Nigeria between 2010-2019. 25 pp. (2021)
2. Aroni-Soto, Allison Melanie. Optimization of methods for direct whole genome sequencing (WGS) of *Leishmania* in mixed samples. 21 pp. (2021)
3. Jouego, Tagne Christelle Genevieve. Programmatic management of rifampicin-resistant tuberculosis with short treatment regimens, including a modified regimen for patients with resistance to second-line drugs between 2015-2019 in Cameroon. 20 pp. (2021)
4. Kourouma, Karifa. Management of febrile illness in rural Guinea: a seven-year retrospective study. 23 pp. (2021)
5. Lunardi, Marta. Hospitalized children with severe acute malnutrition in Ethiopia: retrospective analysis of the cascade of tuberculosis diagnosis and uptake of treatment. 21 pp. (2021)
6. Mallick, Jahan Saeed. Acquired bedaquiline resistance during the treatment of drug-resistant tuberculosis: a systematic review. 32 pp. (2021)
7. Moe Pyae, Thandar. Predictors of hepatitis C treatment failure among HIV/HCV co-infected patients in Myanmar: retrospective cohort study. 38 pp. (2021)
8. Murithi, Winnie Kathambi. Epidemiology and geographical distribution of human schistosomiasis in Kenya: a systematic review. 39 pp. (2021)
9. Ndambuki, Johannes Nzioka. Evaluating diagnosis and treatment of drug-resistant tuberculosis in Machakos county, Kenya. 19 pp. (2021)
10. Posadas Yabar, Andres Esteban. Investigating the role of Chikungunya non-structural protein 3 in modulating innate antiviral signaling. 32 pp. (2021)
11. Rashid, Mohammed Ally. Association between pre-vaccination peripheral white blood cell counts and antibody response to PfSPZ malaria vaccine. 32 pp. (2021)
12. Sani, Khalil Amoka. Toward optimizing tuberculosis diagnosis in Nigeria: impact assessment of the use of Xpert MTB/RIF Ultra cartridges versus G4 cartridges on tuberculosis yield in a mobile active case finding intervention. 21 pp. (2021)
13. Sánchez García, Gerardo. Expression analysis of Fam10-surface protein encoding genes during the life cycle of *Trypanosoma congolense*, a major pathogen of African livestock. 35 pp. (2021)

14. Tun, Ni Ni. Near point-of-care HIV viral load testing: uptake and utilization in suburban Yangon, Myanmar. 18 pp. (2021)
15. Umugwaneza, Arlette. Molecular surveillance of *Plasmodium Falciparum* drug resistance in Vietnam since 2018. 26 pp. (2021)
16. Uwajeh, Akwuadikanwa Raaluke. Drug-Resistant Tuberculosis (DR-TB) and co-morbidities: clinical manifestations and treatment outcomes in Taraba State, Nigeria, 2015-2020. 27 pp. (2021)

2022

1. Achondou Akomoneh Elvis. Oropharyngeal microbiota and colonization resistance against pathogenic *Neisseria* species. 28 pp. (2022)
2. Hadermann Amber. Genome diversity of *Leishmania aethiopica* from Ethiopia. 39 pp. (2022)
3. Janssens Edith. Chikungunya virus nsP3 suppresses NLRP3 inflammasome activation by sequestering DDX3X. 29 pp. (2022)
4. Kinyanjui Mary Wanjeri. Epidemiology of poly-parasitism with *Schistosoma* spp. and *Plasmodium* spp.: a systematic review and meta-analysis in selected co-endemic regions of Sub-Saharan Africa. 34 pp. (2022)
5. Mashe Tapfumanei. Survey of species diversity associated with extended-spectrum beta-lactamases production from five wastewater plants in Harare, Zimbabwe. 17 pp. (2022)
6. Nair Parvati. Prevalence of baseline bedaquiline resistance amongst rifampicin-resistant tuberculosis patients - a systematic review and meta-analysis. 36 pp. (2022)
7. Nissad Attoumani. Molecular confirmation of clinical diagnosis of leprosy by identifying *Mycobacterium leprae* and *Mycobacterium lepromatosis* in the Union of the Comoros. 24 pp. (2022)
8. Nji Che Pantalius. Setting up and validating *Plasmodium falciparum* NF54-pfgexp02-TdTom infectivity experiments to *Anopheles stephensi* mosquitoes. 56 pp. (2022)
9. Odhiambo Peter Otieno. microRNAs in *Trypanosoma brucei*-infected tsetse fly saliva. 35 pp. (2022)
10. Salazar Buenaño Julio P. Impact of dengue fever on depression, anxiety and stress symptoms in Esmeraldas province, Ecuador: a prospective cohort study. 27 pp. (2022)
11. Tesfahun Hiwot Melak. Outcomes of long treatment regimens for rifampicin-resistant tuberculosis in Iraq: a retrospective cohort study. 27 pp. (2022)

2023

12. Adedeji Waheed Adeola. A ten-year record analysis of acute poisoning in a tertiary hospital, Ibadan, Nigeria. 23 pp. (2023)
13. Bola Siafa Antoine. Inappropriate antibiotic prescription for acute tonsillitis in low- and middle-income countries (LMICs): a systematic review and meta-analysis. 23 pp. (2023)
14. Dewaele Klaas. *Glossina morsitans* salivary miRNAs in the pathogenesis of African Trypanosomiasis. 48 pp. (2023)
15. Diavita Ruth Lukau. Clinical characterization and assessment of risk factors during a Clade I mpox virus outbreak in Maniema province, Democratic Republic of the Congo. 25 pp. (2023)
16. Gupta Nitin. Doxycycline vs azithromycin in patients with scrub typhus: a systematic review of literature and meta-analysis. 23 pp. (2023)
17. Hoorelbeke Delphine. CHIKV nsP3 interactome in modulating Hippo signaling pathway and determinants of vector specificity. 30 pp. (2023)
18. Jallow Musa. Attrition among chronic hepatitis B patients on antiviral treatment in the Gambia: a retrospective cohort study. 28 pp. (2023)
19. Kagame James. Use of a targeted next-generation sequencing Pf AmpliSeq assay for molecular surveillance of *plasmodium falciparum* drug resistance markers in Burkina Faso and the Democratic Republic of Congo between 2015 to 2019. 49 pp. (2023)
20. Kahusu Christian Mwan-zak'a. Durability of vaccine-induced immunity against ebola virus disease in rVSV-ZEBOV vaccinated healthcare providers in the Democratic Republic of Congo. 13 pp. (2023)
21. Mukuna Didier Makaloy. Effect of dolutegravir-based versus efavirenz-based regimens on excessive weight gain in adult treatment naïve HIV patients at Matsanjeni health center, Eswatini: retrospective cohort study. 21 pp. (2023)
22. Mukutsha Sango Sarah. Association between clinical morbidity and intensity of *Schistosoma mansoni* infection amongst school-aged children in Kongo Central, DR Congo. 14 pp. (2023)
23. Nfor Vilma Tracey Yayuh. Response of different *Mycobacterium tuberculosis* complex lineages to first-line treatment for drug-susceptible tuberculosis. 34 pp. (2023)
24. Novaes Ane de Souza. Exploring wet lab strategies to improve metagenomic sequencing for viral pathogen detection. 26 pp. (2023)
25. Okunade Kehinde Sharafadeen. Development of antepartum risk prediction model for postpartum haemorrhage in Lagos, Nigeria. 27 pp. (2023)
26. Pinedo Bardales Maria Guadalupe. Selective whole genome amplification as a method

for genomic surveillance of *Leishmania braziliensis*. 72 pp. (2023)

27. Yango Wa Yango Jepsy Grace. Clinical prediction score for ebola virus disease screening at triage centers in DR Congo. 15 pp. (2023)
28. Yosofi Ahmad Reza. Treatment outcome and proportion of relapses among cases treated with all-oral short standardized regimens for rifampicin-resistant tuberculosis (RR-TB). 21 pp. (2023)

2024

29. Ghilardi Carlotta. Retention and virological outcomes of community ART groups, including 'moter to mother' groups, for ART delivery among PLHIV in Tete, Mozambique. 18 pp. (2024)
30. Isekusu Mpinda Fiston. Silent hypoxemia among hospitalized COVID-19 patients in sub-saharan African countries: a retrospective cohort study. 18 pp. (2024)
31. Lodiongo Kenyi Woja Dennis. Mutations in no-*Pfk13* genes associated with artemisinin-combination therapy partial resistance in clinical isolates of *P. falciparum* from Burkina Faso and the Democratic Republic of Congo: a retrospective laboratory-based study. 24 pp. (2024)
32. Lopes Ferreira Dantas Pedro Henrique. Optimizing a whole genome sequencing (WGS) method to characterize *Monkeypox virus* (MPXV) Clade I outbreaks. 26 pp. (2024)
33. Mpawenayo Gustave. HIV care among key populations: a retrospective 5-year analysis of seroconversion and antiretroviral therapy uptake among female sex workers in Rwanda. 18 pp. (2024)
34. Ndayisenga Jerome. Investigating the effect of zinc supplementation on primary *Mycobacterium tuberculosis* isolation and drug- susceptibility testing in thin-layer agar. 18 pp. (2024)
35. Ndikintum Leinyuy Venessa. Volatile organic compounds for the point-of-care diagnosis of Buruli ulcer: an in vitro pilot study. 25 pp. (2024)
36. Ngoufo Paulin. Searching for the basis of transmissibility differences in *Trypanosoma congolense* by differential gene expression analysis at their Midgut stage in the Tsetse fly vector. 39 pp. (2024)
37. Seid Abdurezak Mohammed. Evaluation of diagnostic performance of three novel rapid diagnostic tests for onchocerciasis diagnosis among pregnant women in South Sudan. 37 pp. (2024)
38. Sughra Hidayatallah Noor. Evaluating broth microdilution as a diagnostic tool for borderline *rpoB* mutants causing rifampicin-resistant tuberculosis. 36 pp. (2024)
39. van Eijk Erika. Comparison of antiseptics and disinfectans included in national essential medicine lists from sub-Saharan African countries to the World Health Organization model list of essential medicines. 18 pp. (2024)
